

ENERGY COURT CENTER

📍 Sarasota, Florida

PROJECT OVERVIEW

The entrance of this professional building opens up to a three-story atrium and common area featuring terrazzo stairs with cable railing. The contemporary design includes maple paneling and Schluter Systems incorporated into porcelain flooring, as well as a glass and masonry shell. Large windows and glass doors takes in the warm sunlight creating an inviting space. The exterior features a corner curtain wall with blue tinted glass. Housed in Energy Court Center is Fawley Bryant Architecture's Corporate office along with five other business office spaces.
