

## IMG PRESSBOX

📍 IMG Academy | Bradenton, Florida

## PROJECT OVERVIEW

Located at the IMG Academy football stadium, the dynamic multifunctional press box building includes broadcast ready press rooms, hospitality suites, coach meetings rooms and a collegiate-style video board. By connecting the grandstands and the press box structure, a weatherproof space is created to serve concessions, retail sales and a generous sports branded gathering space. VIP guests and visitors take an elevator ride to the suites and enjoy panoramic views of the game and growing campus. Two efficient linear restroom buildings also service the crowds and create a bounded edge to the complex.
