

PEACE PRESBYTERIAN CHURCH

📍 Bradenton, Florida

PROJECT OVERVIEW

Peace Presbyterian Church hired Fawley Bryant Architecture to design their new 7,340 sq.ft. sanctuary on their existing property and adjacent to their current fellowship hall. The space includes a narthex, men's, women's, and family restrooms, and refreshments area. The 400 seat sanctuary features choir and orchestra space, an A/V booth, as well as music storage and a communion preparation room. With our team of consultants, we coordinated audio, visual, and lighting equipment and technology, along with projectors and screens, and a variety of theatrical lighting modes.
