

## THE OAKS CLUB WELLFIT CENTER

📍 Osprey, Florida

### PROJECT OVERVIEW

The Oaks WellFit Center springs from the country club's commitment to live a healthy lifestyle as fitness and wellness continue to grow in importance. The new facility complements the design of the country club's 1,000 acre campus. The new 7,500 sq.ft. athletic facility, called the Wellfit Center, includes cardiovascular equipment, free weights for strength training, a group fitness room, treatment rooms for massages and physical therapy, and changing rooms with locker facilities. A premium trellised outdoor 'plaza' area on the side of the building was created to allow for future expansion.
